

# Bre-ColeNEWS

June-July 2012

## With Rising Temperatures.....

your air conditioning system is most likely running full blast. It is not too late to protect your investment. Call us today to let us help you protect your investment by scheduling an air conditioning service and clean.

Graduation is a time to celebrate all that you have achieved, prepare for a future of opportunities and embrace a world of endless possibilities! Congratulations to all the graduates of 2012!

## Refrigeration:

Like any mechanical system, your refrigeration equipment works best with regular, preventative maintenance. Well maintained refrigeration equipment is more efficient, performs better over time, and is more dependable.

Having routine maintenance done by a trained technician can pay off over time. The many benefits of having preventative maintenance done on your refrigeration equipment includes:

- Improved equipment performance
- Reduced energy costs
- Extended equipment life
- Helps to prevent costly repairs
- Better system safety
- Less product loss

Protect your refrigeration equipment and your budget with regular, preventative maintenance. Call us today to let us help you protect your investment by scheduling a service and clean on your refrigeration equipment.
